

# ACS honors its 50-year members in 2023

The American Chemical Society and its local sections are honoring those who have reached 50 years of membership in 2023. This year, ACS has 780 50-year members worldwide; 25 chose not to have their names listed. To commemorate reaching this milestone, ACS gives each member a 50-year certificate, a special lapel pin, and a permanent member card entitling the person to free registration at all national and regional ACS meetings.
